

Glister[®]

THE SOUL OF INTERIOR

THE FUTURE

Craft Beyond Measure

Why Choose GLISTER?

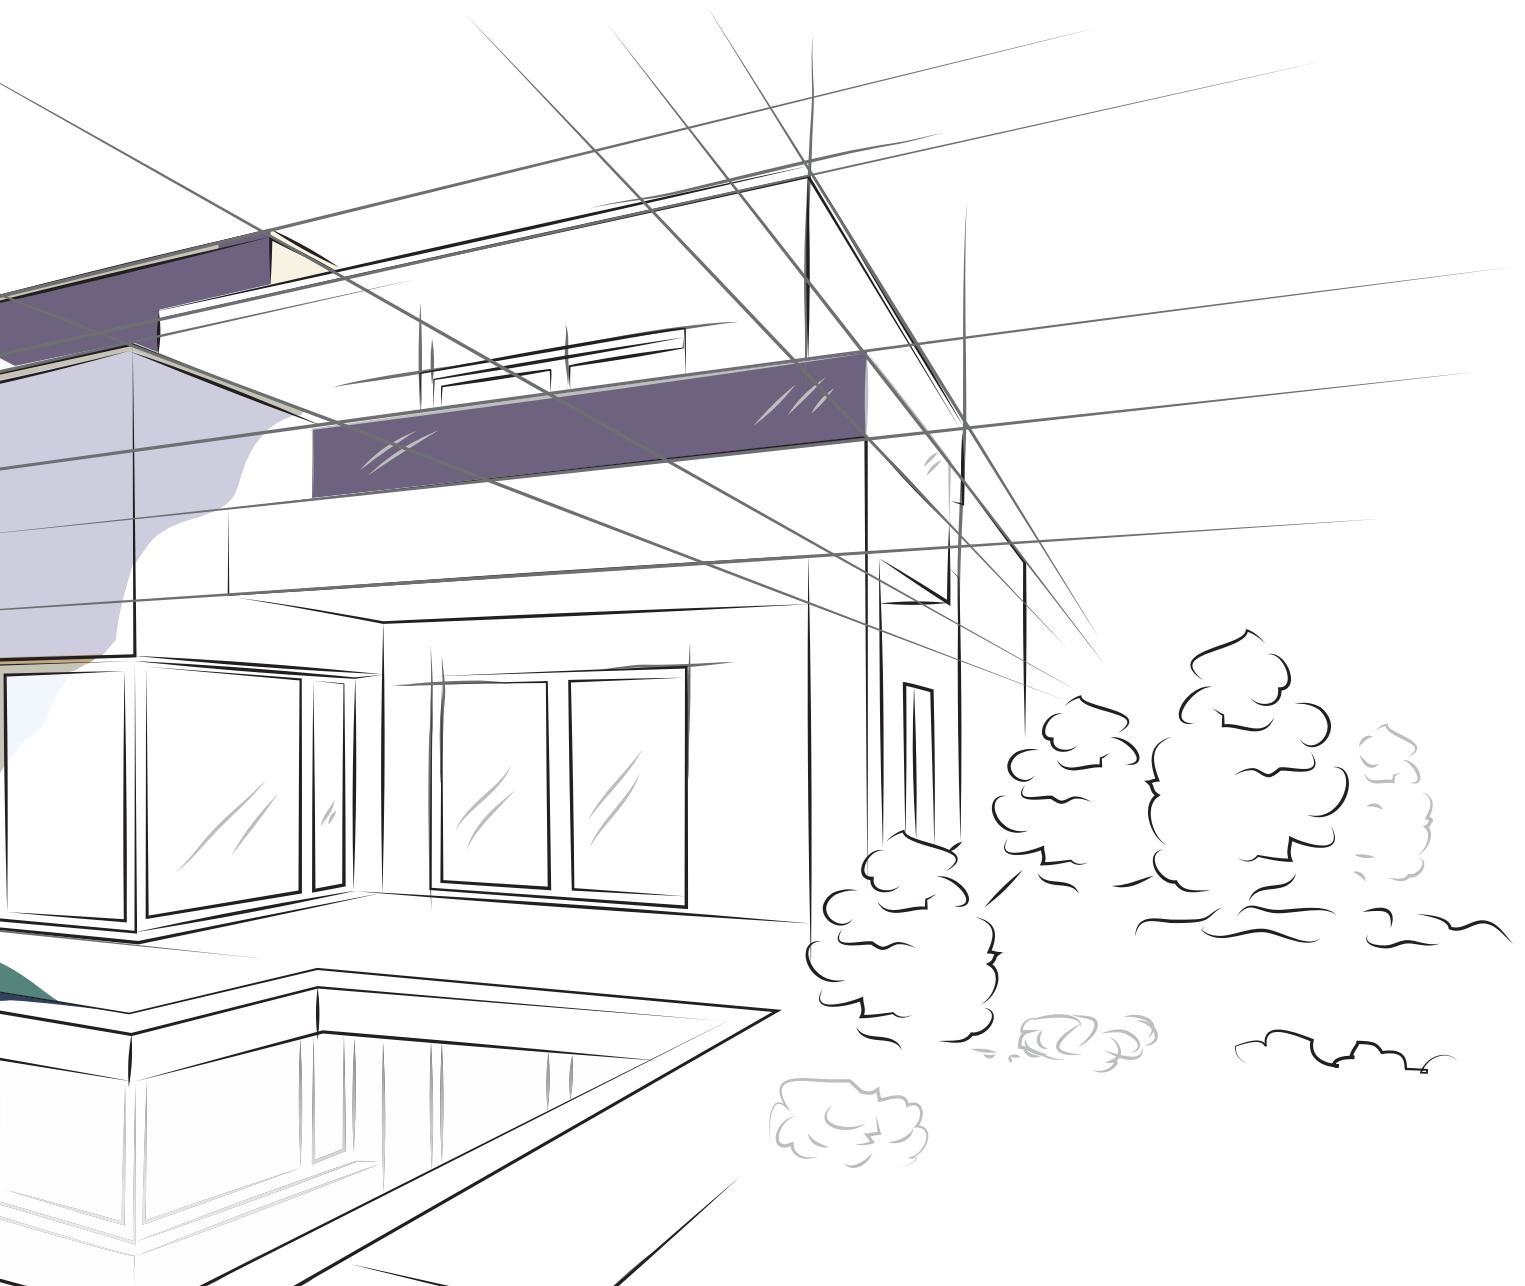

AN ISO 9001:2015 COMPANY

CERTIFIED COMPANY

A COMPLETE AND FLAWLESS SURFACE DESIGN.

Incepted in the year 2006, We, "Arowtech Industries", are one of the reputed Manufacturers, Supplier and Distributors of a wide variety of Hardware Fittings and Door Fittings. We fabricate our products from top grade raw material using latest expertise in compliance with international quality standards. These products are fabricated under the guidance of Skilled professionals to ensure superior quality and tremendous efficiency.

About Us

Glister, established in 2006 by Bhavin Patel is a distinguished name in the hardware industry, recognized for its high-quality and aesthetically pleasing products. With a focus on innovation and superior craftsmanship, Glister offers a comprehensive range of hardware solutions, including mortise handles, cabinet handles, main door handles, drawer knobs, and aldrop handles. These products are meticulously crafted from premium materials such as SS 304, SS 202, zinc alloy, and aluminum. Our commitment to excellence and customer satisfaction has made us a preferred choice among homeowners, architects, and interior designers.

Vision

Our vision is to be the global leader in the hardware industry, recognized for our innovative designs, exceptional quality, and unmatched customer service. We aspire to set new industry benchmarks by constantly evolving and adapting to our customers' needs while maintaining the highest standards of craftsmanship and integrity.

Mission

Quality Products

To provide our customers with high-quality, durable, and stylish hardware solutions that enhance both functionality and aesthetics.

Innovation

To foster a culture of innovation, ensuring that our products remain at the forefront of design and technology.

Ethical Practices

To uphold ethical business practices, ensuring transparency, honesty, and respect in all our interactions.

THE DEPTH

OF GOAL

Milestones & Journey

2006

Glister was founded by Bhavin Patel, Denis Patel & Vikunj Patel with a vision to revolutionize the hardware industry with high-quality and stylish products

2010

Expanded our product line to include cabinet handles and main door handles, catering to a broader market segment

2014

Introduced an innovative range of drawer knobs, blending traditional craftsmanship with modern design elements.

2018

Opened a state-of-the-art manufacturing facility, enhancing our production capabilities and ensuring the highest standards of quality and precision.

2020

Successfully entered international markets, exporting our products to several countries and establishing Glister as a global brand.

2023

Celebrated our 17th anniversary, marking nearly two decades of innovation, growth, and customer satisfaction.

Virtually Endless

Anyone is welcome, any time: project designers, retailers or the simply curious can explore the various settings, taking a look around and moving freely from one area to another, with an interesting, realistic view and augmented reality systems that offer in-depth information and detailed views.

WELCOME TO THE World of Crafted Hardware

GLISTER sees the surface finish as an independent component in design, which is why developing finishes that are both high-quality and unique has always been a priority of ours. A production facility that has one of the most modern electroplating systems in the world creates finishes of exclusive beauty, quality, and durability.

Endless
Endlesssss
Endlessssss
Endlesssssss
Endlessssssss
Endlesssssssss

Endless Beauty

The possibility of combining several color tones and shades, giving life to compositional schemes inspired by personal creativity and inclinations.

Production Process

Glister employs a meticulous and comprehensive production process to ensure the highest quality of our products. The process includes

Casting

Using advanced casting techniques, we create the basic shape of our products from premium materials such as SS 304, SS 202, zinc alloy, and aluminum.

Turning

Precision turning machines shape and refine the cast pieces to achieve the desired dimensions and surface finish.

Buffing

The products undergo a thorough buffing process to ensure a smooth and polished surface, enhancing their aesthetic appeal.

Electroplating / PVD

We utilize electroplating and Physical Vapor Deposition (PVD) techniques to apply a durable and corrosion-resistant coating, ensuring long-lasting performance and a premium finish.

Quality Check

Each product undergoes rigorous quality checks at various stages of production to ensure they meet our stringent standards of excellence.

Packing

Our products are carefully packed using high-quality materials to prevent any damage during transportation.

Dispatch

We ensure timely dispatch and delivery of our products to customers worldwide, maintaining our commitment to excellence in service.
